
Welcome!

Get ready for an inspirational look at the art of Interior Design. Take your seat as a kaleidoscope of educational material comes your way.

You will witness Case Studies, Tutor Demonstrations and explanations of simple technical skills in drawing and 3D modelling. You will see your tutor produce several designs for a project whilst inviting you to assess their merits. Your Tutor will encourage you to progress your design ideas too and this will help you gain confidence to develop proposals for your own home.

You will see how you can get the best from your builder/ decorator by learning 'the tricks of the trade'. At the same time you are invited to view approximately two hours of video material: all supported by Downloads that emphasize key points.

Award winning designs from internationally acclaimed practitioners are showcased and include accessories that provide enrichment and embellishment. You will also see presentations that include the building process, ergonomics, space planning, colour, materials and lighting: all supported by your Tutor's commitment to develop your appreciation of this fascinating subject!
